Country or area	Violence against women		
	Proportion of ever-partnered women and girls subjected to physical or sexual violence by a current or former intimate partner in the previous 12 months	Number of ever-partnered women and girls subjected to physical or sexual violence by a current or former intimate partner in the previous 12 months	Female victims of intentional homicide per 100,000 population
	Women aged 15-49		Total
	2007-2017 (latest available)		2017
	%	Number	

Columns : 4 : UN Women calculations using UNSD 2020. Global SDG Indicators Database. <https://unstats.un.org/sdgs/indicators/database> and UNPD 2019. World Marriage Data 2019. <https://population.un.org/MarriageData/Index.html#/home>

Notes:

- Global and regional averages shown in red and brackets should be treated with caution as the data coverage is below UN Women's threshold (at least 50 percent of countries and/or 66 percent of the population covered).
- Hyphen (-) indicates country data are not available or regional/world average is not applicable or cannot be derived. ☒

- a : Definition of physical and sexual violence differs. See UNSD Global SDG Indicators Database for further information on country-level sources.
- b : Includes currently married women only.
- c : Definition of sexual violence differs. See national sources for further details (UNSD Global SDG Indicators Database).
- d : Samoa excluded from aggregate calculation
- e : Global violence victims estimate derived by applying the global prevalence of violence against women aged 15-49 to the global number of ever-partnered women aged 15-49.
